

PARKING LOT & ROAD SAFETY

SIGN BASES

The RubberForm Sign Base (Portable Recycled Rubber Sign Post Base), Sign Holder, Sign Stanchion lets your customers, employees and visitors know you not only care about their safety, but also the environment. Our Sign Base Sign Holder is made in the USA from 100% post consumer recycled tire rubber and recycled plastic. Combined with our recycled aluminum traffic signs they make an excellent choice for Green or LEED certified building projects. RubberForm's attractive and durable sign base is ideal for parking lots, parking garages, crosswalks, schools, shopping malls, grocery stores, plazas, universities, hospitals, airports, construction sites, government facilities and more. Use it anywhere portable or semi-permanent signage is needed—such as handicapped parking spots, entrances, pedestrian crosswalks, intersections, corporate facilities, and events. Aerodynamic and heavy enough to stay upright, yet light enough to be tipped and rolled to another location.

Features

- Enhances safety and minimizes liability/damage in vehicle/pedestrian incidents
- All-weather easy maintenance: will not rust, chip, crack, crumble, corrode or need repainting
- Supports any sign up to 24" diameter: Traffic signs, event signage, temporary, etc.
- Easy to install, easy to move for snow removal, maintenance or storage—just tip and roll
- 100% Post Consumer Recycled Tire Rubber
- Aerodynamic design—low center of gravity— withstands strong winds and severe weather
- Sign Base Cart—no need for wheels on the base to move, buy one per location
- Product Lifetime Warranty
- Patents pending

Specifications

- 18" Round / Wide x 14" High Conical shape
- Cone Shape Sign Post Base —very low center of gravity for added stability
